O-ring Remover

Manual Instruction Card

IMPORTANT INSTRUCTIONS

1

Water-tight test of the housing (without camera inside) before usage is recommended as well as any O-ring renewal and port change.

2

Do not seal the housing when travelling by air as this may lead to a pressure difference between the atmosphere and inside the housing.

3

Only the accessories specified by Nauticam must be used. Third-party accessories may result in malfunctions or damage to the product.

4

Use only Nauticam lubricant on silicone rubber O-ring.

5

Do not stretch any O-rings excessively. Only remove it using Nauticam O-ring remover.

6

Discontinue use immediately when there is a sign of leakage.

7

Do not attempt to remove parts of the housing yourself. Repairs must be done at authorized service centers only.

8

The housing should be positioned on the a stable and safe surface on land.

9

Do not expose the housing in direct sunlight for a prolonged period.

10

Do not open the housing in wet or sandy environment. Protect the housing from moisture and debris in order to prevent malfunction or leakage.

11

Prevent any sand or dust or water penetration inside the housing. Be extra careful when changing lens and inserting or removing the camera.

12

This product is not intended for use by children, or persons with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they are supervised and/or given instruction by a responsible person concerning use of the product to ensure that they can use it safely.

OPENING THE HOUSING

* drawings as illustrations only

1

depress housing unlock button

2

turn housing lock latch
anti-clockwise to open the
housing

3

flip open the back housing
when lock latch is aligned to
'open' position

CLOSING THE HOUSING

* drawings as illustrations only

1

before closing the housing, clean and lubricate the main O-ring

make sure nothing is caught between front and back housing and that they are fully aligned before locking

2

insert the housing shaft into the shaft hole and then rotate the lock latch clockwise until you hear and feel it click into place

3

housing locked in place securely

PREPARATION FOR USE

* drawings as illustrations only

Installing the Camera - housing tray attachment

1

unlock camera tray lever and
remove the tray from the housing

2

remove the eye piece before
installing into the housing

attach the camera tray by tightening
the tray screw into the tripod socket
of the camera

place the actuator on the camera
tray in place and make sure it is
engaged with the camera

3

** lift up the Mode dial as well as the
ON/OFF lever before installing the
camera into housing*

slide the camera tray back into the
housing along the tray rail

4

lock camera tray

**gently push the Mode dial and ON/OFF
lever downwards to make sure it is engaged
with the lever on the camera*

PREPARATION FOR USE

* drawings as illustrations only

Port Mounting

1

depress port lock safety button
and rotate anti-clockwise

2

lubricant the port O-ring before
mounting

align index mark

push port assembly straight in

3

rotate locking lever clockwise to
lock

PREPARATION FOR USE

* drawings as illustrations only

Coating housing O-ring

1
remove the main O-ring using an O-ring remover

2
clean the O-ring groove with a cloth and ensure
that it is free from salt or other foreign materials

3
lightly coat it with provided lubricant

4
return the main O-ring by slowly pressing from
one corner to the whole perimeter

PREPARATION FOR USE

* drawings as illustrations only

Setting up moisture alarm

1

remove battery
insulation film

2

press the battery down until it
click into place

3

switch on the alarm
- the moisture alarm
window will flash in
BLUE when it is working
correctly

4

test the alarm
- connect the wires with a
dampened cotton bud; the
alarm will give a repeating
'beep' and the moisture alarm
window will flash **RED**

* please contact our authorized service centers if testing fails
* please refer to page 15 for complete vacuum system guidance

PREPARATION FOR USE

* drawings as illustrations only

Changing lens/port without opening the housing

1

If using with vacuum valve :

remove the cap from the vacuum valve and press the red button to release pressure before unlocking port lock

If using without vacuum valve, please follow from step 2

2

unlock port lock and remove port assembly

3

press the blue button to reset vacuum alarm before replacing port

4

replace port assembly

then reset vacuum valve system using hand pump and close the cap after

* please refer to page 15 on complete vacuum system guidance

OPTIONAL ACCESSORIES

1

- remove the plug of M14 accessory port from the housing
- remove the cap from the vacuum valve
- slightly lubricate the o-ring and make sure the o-ring is in place
- then tighten the vacuum valve to the housing with the tool provided

2

- connect hand pump to the valve and pump several times until it reaches the target vacuum level
- close vacuum valve cap

Moisture alarm window colour indication :

Steady Blue		device is turned on
Flashing Blue		standby mode, ready for pumping
Steady Green		target vacuum level is reached
Flashing Yellow		vacuum level is dropping
Flashing Red		vacuum is totally lost, circuit stalled until device is switched off
Alternating Blue and Red		vacuum is totally lost, circuit stalled until device is switched off
Steady Red		out of battery

** It is recommended to leave the housing for at least 20mins to ensure it is sealed. If the LED light changes from steady green light to rapidly flashing yellow light, that means there is a leakage. Please check every O-ring and then conduct the vacuum test again.*

** please contact our authorized service centers if testing fails*

CARE/STORAGE

1

Soak the housing system in fresh water after salt water usage

2

Operate all controls and buttons at least 3 times while immersed in fresh water

3

We recommend cleaning and inspecting the main O-ring each time after diving for any damage and every time the housing is opened.

4

Protect the housing with robust and shock-proof travel case during transportation. Do not travel with camera inside housing.

5

We recommend to ship the housing to our service centers for a complete overhaul after 500 dives/every 3 years.

WARRANTY

All NAUTICAM Housing Products and Viewfinders are warranted against any material and manufacturing defects for two years from the date of purchase for consumer use. NAUTICAM Optical Accessories are warranted against material and manufacturing defects for a period of one year, and HDMI cables carry a year warranty.

This warranty only applies to products purchased from authorized NAUTICAM dealers and does not extend beyond the original retail purchaser.

To return your product for service, please contact your regional authorized service center(s). Please note that this warranty only applies when the product is purchased in the territory where the service center is located.

NAUTICAM accepts no liability for any damage to and defects in the housing caused by improper use and/or poor maintenance; it is the responsibility of the owner to carefully follow the instructions in our manuals.

NAUTICAM does not hold responsibility for damage, of any nature, to any equipment used with and/or placed within our products.

NAUTICAM accepts no liability for any loss of captured images or the inability to capture images even if it is due to the malfunctioning of our products.

Unauthorized modifications and/or repairs of our products will automatically invalidate the warranty.
